Dear Prez. TRUMP...

Several years ago, I was kidnapped by several armed men. (See evening news Jan 21, 2009) I was taken to a room without windows where I was kept against my will. I am now held in an undisclosed location where I'm forced to eat dog food, where Fashions biggest mistake.. "Crocks" and a grown man in a blue nurse-a-form makes me walk in circles and drink water till I vomit when my blood sugar is high. I realize you think I'm some physco murderer but I assure you I was framed. We can work this out. Send the limo, I'm already packed, I like pot roast, and I will love being your guest in the white house when you've discovered the mistake.

See you soon,
Loathridge
