

HAIL MARY

BY: Demetrius Stokes

Introduction

Good afternoon gee I hope you learn the declaration and follow it. (A) is Allegiance so let us build game together. First we must know that life is like a game of chess and it all depends on our next move. But before we make a move we must survey the landscape, identify the players, pick a side, last but not least execute. the landscape is the current condition we are in like the allegiances we are from and claim. the players are Bishops, knights, Rooks, Pawns, Queens, Kings. A Bishop is a diplomat from any allegiance. A knight is a rider from any allegiance. A Rook is an O.G from any allegiance. A Pawn is anybody who dont hold any influence from any allegiance. A Queen is the allegiance and a King is a General. Now that we know this we must pick a side the two sides are peace or war. When it comes to these two we must practice what is real. This is to eliminate unneccessary conflict. Now to build we must execute. which means to produce in accordance with a plan or design.

Now we have © which is
Common denominator. Every man
should be able to practice his chosen
common denominator without compulsion.
This is what ties us to the game of life.
As Duck I play the game. However; I
believe its good to be aquainted with all
Schools of thought. So we as the learned
can use tact to fill in the gaps of
brotherhood. If not we follow the same
cycle as Cain and Abel. It was Cain
who was jealous of Abel for his
Sacrifice to God. He was a hater, and
we all know playah's do what they want
while suckah's do what they can. So I
hope each one will teach one
according to their knowledge to
become a voice of the people. Because
the streets is where I was born and
raised. Hooray to the Order for now
and generations to come.
