

FROM
CRIMINALS
TO
GODS

"MY LIFE OF PROSPERITY"

Introduction

Criminals to Gods is a book of quotes with pure impact. Once the reader reads the contents to this book He or Her will feel like a God. I've come to learn that quotes are a powerful tool to know and learn. Its like looking into the mirror and gaining the clear image of self. So I hope you will take my word and experience the magic of criminals to Gods.

there is gold and a multitude
of rubies, but knowledge is
a precious jewel.

there will be ups and downs
smiles and frowns so be
prepared to fight for your
crown.

I feel successful even if I
accomplish one good deed.

today positive thoughts
infuse me for the better.

time is very precious so you must utilize every resource appropriately.

Given today's obstacles I choose to overcome them with grace and ability.

It is most important to believe in yourself even if some don't believe in you.

We must be faithful to doing good because we are married to life

There are no limitations just
levels and degrees that you
must master.

With constant prayer and
reading the battle is halfway
won

As long as I stay true to myself
my riches and pleasures will come
from a honest career.

true Dons always stay ten
toes on ther're square

I refuse to just let things happen by chance, when I can take life by the horns.

staying optimistic and motivated to succeed keeps me in the right frame of mind.

With a sound mind and body
there is always an addition or
increase for me.

I refuse to be a nobody when
I can step up to lifes
challenges and overcome.

My objective is to work on my game and get fame so many people can know my name.

staying busy makes me content so I push, pull and strive for greatness.

To become a genius you must go through many trial and error because practice makes perfect.

stars are not born there made so create your own star and watch it shine.

I rather take my chances
in doing something positive
than doing something negative.

We all have skeletons in the
closet but smoothing out the
ruff areas with the small
goals count.

I am a strong individual so
you can't burden me with your
troubles.

Staying prepared and sticking
to the plan makes me at the
peak of my game.

When you recite and write down positive suggestions the universe automatically works for you.

Nothing feels better than being successful in performing my duties.

Getting ahead in life makes me happy because I know I have accomplished something.

the more I plant seeds the fruitful my harvest of work will be

staying true to the way things
really are is how you see lifes
purpose

My goal is to become one of
the shining lights of this
foundation.

Sometimes you have to maneuver more skillfully than others to score in the game.

My good points about me outweigh my bad so this makes me valuable

Coming to learn myself has
taught me patience and the
art of mastery

My lifes story is a plot full of
intricacies to tell about.

Releasing my gratitude for
what God has done for me is
like drinking sweet nectar.

I intend to make my
tomorrow even better than
my today.

Doing the best you can do and being accounted for your action are leadership qualities.

I take my profession serious and work everyday in a special way.

This is my life and I must
win failure is not on my
agenda.

Free speech is the keystone
to our liberties. So we must
not take our position lightly.

When life is challenging I
pray reflect and go deep into
my reservoirs of self
determination.

The more you submit to Gods
will the more purity you will
have with devotion.

Becoming successful in a skill
and enjoying life is the best
pleasure to have.

As long as theres room to grow
then that means I can improve
on myself for the better.

The key to success and happiness only comes to those who ponders their way.

the straighter line I have to walk the better my aim will be towards my target.

to produce strength in
tribulation means to dont give
up when trouble comes.

Confidence is reposed by a
strong person with will power.

When things get hard we have to
simplify the problem and stick
to the basics.

My work is full of meaning and
significance expanding my
horizons.

I have become a great artist
because I know how to
finesse.

I am strong and steady with
a firm command not weak
minded.

Like John Hancock I have been
the first to sign my
Declaration of Independence.

Now that we have come together
let my words be the handshake
used to show agreement or
friendship.

Living exciting is the goal not
living superficial desires. This
is how you stick to the game
plan.

When I look deep into myself
I found the answer to my
prayers

conformity to fact not
nonfiction is the way your
reality should be

to excel means to transcend
above or beyond circumstances

A trend setter is a person who can adapt to new ways and ideas and then create his own path.

Even a wise person can learn from a fool on what to do and not to do.

In order to conquer your worries you have to begin a accurate crusade.

Believing in the truth is to shun ignorance influence when it comes your way.

I never judge the next man
because only he can come
into the realization of finding
hisself.

The test of life is not based
on to break you down but to
build you up.

To increase your contacts which is the key to success you have to start networking.

Gods divinity is in everything and just in a pedal of a flower you can discover it

I believe as a people we can
leagued together against
our common enemy.

with my model of operation
and my motivation I strive
to be a liberator.

It might be a longshot to reach my target but if I keep trying it will be very rewarding.

Everyday I feel I get nearer and nearer to my goal because I make it necessary to work.

I am the maestro of my own
tune because I am the
composer of my life.

Each day I try to stay
jovial because I know this
is a once in a lifetime
journey.

The amount of progress you achieve in life all counts on how you cherish it.

When I write quotes I'm in the condition of being set free from worries.

the key to success is
learning how to focus on a
positive goal that may be
for the future.

It dosent hurt to be a
apprentice some times that
way you can harness your
skill.

I've learned to manage my time and take the small steps. In return I receive a bigger profit.

Knowledge is like peeling an onion there's always more layers to know.

I can tackle the biggest problem and find the solution just by reflecting before I act.

life can be an adventure when your on a hunt or search for knowledge.

A man should be the bread
winner out in society while a
woman should be at home

Even though the world might
be against me I use my
brain because I'm top dog.

History is in the minds eye
and if you watch me long
enough I'll make it

When I make it big I want
to be able to help others
and give back to my
community

In my world, there is peace
prosperity, joy and a
exceptional way of life.

the direction I want to
take in life is based on my
abilities to write.

Even if some people dont have a purpose in life Iam still going to shine my light.

It takes mind power to be who Iam so I've learned to emanate light systematically.

I excel in life just by being
open to constructive
criticism.

Like the laws of gravity
prayers go up and blessings
come down.

They say practice makes perfect, but I believe the right hand to perfect is experience.

How can you know your status quo if you never go through trial and error.

staying persistent is the only way or you lose sight of the mark.

When power is getting low you have to recharge up or you will not be able to stand on the for front.

I stay positive so good things
always happen for me.

Every living thing and piece of
matter is a spirit. So we must
identify with the good spirit.

To emanate means to let greatness flow from within our deepest reservoirs and assets.

Having growing pains in our lives makes us stronger and gives us the key to achieve success.

Unexpected occurrences might
happen but distinguished
opportunities will arise

the pen is mightier than the
sword once you learn how to
use it.

The value of my life is far above people with bad intentions because I stay positive.

In today's mission there are two things to remember. Stay progressive and anxious for victory.

The light of God illuminates
my mind and guides me.

Information is the coin of
power and it all depends on
how you use it
