Knock Your Sexy Lady

Say brother

I can knock your sexy lady

Off her soft pretty tiny feet

And put her up into my suite

Feed her lobster, her favorite casein

And chocolate candy

Her love for me

She would never camouflage

She will tell you

I am very charming & sweet

Your lady would be very impressed

With her new lover!

When we get old

I wouldn't mind

Cleaning her feet, toes, aging body

And her running nose

Whenever she catch a cold!

Say brother

I am not everyone's lover

I just like your baby's mother!

I know you really don't love your baby!

She is my type of lady!

I can really get into Kathy

Say brother

I can knock your sexy lady!

Defining Love For Me

Defining love for me

Love is never a demon!

It comfort you

Open up your inner souls

And connects with its lost feelings

It does not trap you

It pleases thee!

Defining love for me

It make you chill out

It will make you shout loud

It will make you go to sleep

It is something that you love to keep!

It will always give you something to talk about!

I have a lot of love in thee!

When you find love

You will feel so damn proud!

Love can't do its own thing

It need something to work its thing

And you can hear about it

When people sing about the love thing!

Defining love for me

It will always be you and me!

Love is something that you pretend to see!

It is always inside of you and me!

How Do I Know That I'm In Love?

How do I know

That I'm in love?

You will never feel like a slave

You will feel it

Like spring water from up above!

You can see it in the behaviors that behaves!

It won't get you sprung out on drugs!

You can find love within a thug!

Love is like a flu bug!

It is when your lover kisses you

And only you he or she love to hold!

It is when you guys

Plays out all the right roles

And never bury one's feelings

Within the ground or dog-pound

To share someone's else holes

But loves the adult roles!

How do I know

That I'm in love?

You will never be battered by your mate!

Hate coming home from work late!

Your love is like a dinner meal on a plate!

Your love feelings for your mate

Will never escape!

When you find love

You will know your mate!

Stranger Loving Me

I love a stranger loving me
We have no commitments
We can fly away
And will never see one another again
Unless we travels upon the same path
Or wants to make love again in a bubble bath!
There are many people
Who love the situation like thee!
But if she candle the love
And give its birth in me
I will refuse to let the love fly away feeling so free!
I will try my best
To keep the stranger loving me!
The love would be so healthy!
And our relationship will get us wealthy!
Our relationship will develop into a land-mark
And we will forget about the love
We gave during daylight
And on every night!
I love a stranger loving me
We can establish commitments
And never wants to fly away
It would depends on the first day
The stranger may be deeply into thee
And truly love me!

My Love

My love
You are pondering
Baby you never have to focus on it!
I truly love you
As real as you see lightning
And thundering above!
I am never about that gorilla love baby!
In this beautiful life
I will always love you lady!
I don't love your friend Kathy!
I love only you baby!
In life we can take our ride into the bright light
And together
We will stand by one another's right side!
We need to keep our "old Ride"
We went through rain
Storms and
Mud slides
Back then my love for you
Could never hide!
Still today I will stand by your side
My love
You are pondering
It is clear to see
As lightning and thundering!
My love for you
You never need to ponder!

Keep Me

Baby you should always keep me!
I am your best years!
I took away all your tears!
I always gave you true love
I am not a 3 minute man
I haven't cheated on you!
I always comfort you
Your friends on the down low
Are trying to come up with thee!
I am not gay!
Never will be!
Your best female friend
Tried to marry me in May!
Baby I love you everyday!
Baby you should always keep me!
When you hear something upsetting about thee
Defend me!
Today lets go to Asia
And next week to Africa
To learn about many other things
Like we do everyday here in America!
The people in Africa will keep me
Baby when you look at our love
Tell me what you actually see!

Lips

Sweetheart

You said I am the first

And only man

Who kissed your soft luxurious lips

And caressed your booming beautiful hips!

I believe what you said today

I am so glad that

I dressed you into some Gucci's Fashion-Wears yesterday!

With you

I love to walk before the preacher

And say, "I do today!"

Yes! Like I told you

"I love you" from the bottom of my heart

So remember yesterday and today!

Last year

I gave you my heart!

Today again I will speak what's on my mind

I shall always love you

Throughout the token of time!

All our bad moments & memories

I have flushed behind

And love for you is all that I have on my mind!

Sweetheart

Your big lips will always taste like sweet apple mints!

Yes! I love your female's scent!

My Woman Was Never Lost

My woman was never lost
But was found!
Our love met at the corner of Aound
I was a down-to-earth hustler
And she turned my life around
I became a well known lawyer within a people's town
And the prosecutors hated how
I turned bad precedents around
To meet the plaintiffs's positive outcome
To live in a prejudiced town!
It was on this same day
When my woman's and my love was found
As we got down upon fooling around!
It was the best love that I'd received in the month of May!
She is the type
Who would never sell her love for any amount of pay!
She and I truly fell in love on this special day
This is real talk like we walk!
My woman is never invisible
Nor will she ever feel miserable!
Our sacred love will always be memorable!
My woman was never lost
But was found!
When we make good love
We sound like two out-of-controlled blood hounds
In our own dog-pound!

So Damn Good

Baby your love is so damn good!
It always get me in the mood to groove!
I love swimming in your nice & beautiful swimming pool!
I will never become your girlfriends's damn fool!
They love me because I am so damn cool
I can shoot good pool
I don't smoke Kools
They heard about how good I can use my snake-tool
Enjoy going to summer school
Love swimming nude in my warm swimming pool
Love posing sitting on my living room bar stools
Love going to work after leaving summer school
Love spending time with my lady
And always calling her my sexy baby!
She is so damn good everyday!
We haven't went to any Monster's Balls
She is very sexy & tall!
She love going to Cinderella's Balls
When come down to loving me
She give me her all!
I love showing her off at all the Players's Balls!
Baby your love is do damn good!
It always get me in the mood to groove!
And when we have our first shorty
I am going to escort him or her to school
And in this life our child is going to be real cool
And nobody's damn fool!

Why Do You Want To Love Only Me?

Why do you want to love only me?

What did I do to you?

Don't you have a man?

I know you love

The French Kisses belonging to thee

I know you love caressing my "Strong African Body!"

I know you said

I am the only one

Who made good love to you

I know you wants to possess me!

Is the aforesaid the reasons

Why you want to love only thee?

You know I love making money everyday

Never was seen talking to a beautiful snow

I love to put on a laughter show

In the worldly game I am never a lame!

You love my nick name

And the way people call me Jessie James

I think you love me because

I love utilizing my brain

If not

Tell me

Why do you want to love only me?

Make a believer out of thee!

And you know

I don't like smoking pot!

My Spot

Baby I love hanging out
In your spot!
You are my essence of love!
It is you that I love to hug
And wants only to love!
So when your sexy
And beautiful body get hot
Please come over to my spot!
I can always cool off the hot
I don't allows anyone
To hang out at my spot!
I will always love your fire
And desire!
In me
You see no weakness
Only happiness
Within your souls
I can hear your inner cries
You will never become my harlot!
None of your girlfriends are foul!
They will never become my foe
Nor my hoe!
I know you ain't trying to trem me out of my doe!
Baby I know you wants to hang out at my spot!
I am your essence of love
And you are very stunning and hot!

Was Born

I love you
In your purest form
I am glad that
You was born!
Your adolescence love
Can never be forgotten!
We made our first love
On some Southern Cotton!
Right now I feel your intensity!
It's a real reality!
I know you still feels my emotions
We will always be filled with love
And devotion!
Can we become the perfect pair?
I know you love playing
In my black thick nappy hair
We never let our love become a talked about rage
Our love for one another
Is on the same page!
You love me
In my purest form
You are glad that
I too was born!
I am so glad that
We aren't into any porn!
Thank God we were born!

I Heard About My Brother

I heard about my brother
Making love to all your friends
And their love for him has no end
Some of them wants to become all mine's
But I refuse to let their sun shine!
I cannot fool around
During the day
And night
I am someone's else's bright shining knight
And our future remains very bright!
I met her as she stood in a very bad howling storm
She lived in a big dorm
Her family and their home were destroyed in a howling storm
When she bumped into me
She felt her hidden joy!
I will always be her heroe
And never end up on deathrow!
I feel her splendor
And will always be her candy vendor
I am finally standing steadfast at last!
Our future is bound to be a blast!
I heard about my brother
Making love to all your friends
And today some of them has brouhgt their love to an end
To become my friend!

Capable Of Loving Me

You are capable of loving me
As you grasp for the roots of my souls!
In silence you knows thee
You have made love to me
Yes! On many rainy nights
You took away some of my dreams
That I carried for years in my veins
I was conscience of your charms
I always loved holding you in my arms!
Our love have always felt right!
By your side
I shall stand
And be your hard working man!
You made me give up running around in the public street
My love is your fulfilling treat
I am glad my friends
Can not knock you off your small pretty feet!
I am glad that
You are capable of loving me!
I don't have to worry about anyone trying to
Get your love on the creep
While awaken
And when I go to sleep!
My love is yours to keep!

Baby Come In Out The Drizzling Rain!

Baby come in out the drizzling rain!
You look like you need some sleep!
I believe you
That LeRoy wasn't trying to come up with your love on the creep!
I know he is from the French Coast
And sometimes appears like a ghost
He isn't nothing like us from the East
And West Coast!
We will always have that flow
And I haven't seen anyone from either coast
That appears to be slow!
Baby come in out of the drizzling rain!
Your body is soak and wet
Your beautiful black hair is scattered all across
Your lovely face
My house is cozy
And a relaxable place
Let me smooth away your pain
I can see on your young face
While standing in the rain!
You can even spend the night
Eat something good
And ain't got to catch any flights!
We'll talk about it if you choose to spend the night

True Blue

Sweetheart

I hear you are true blue!

And you are well put together

Without any glue!

I see you love

Taking walks to the city's parks

I am true blue, too!

Yes! That is so true

And I want to get into you!

I know this isn't nothing new

Beause you are true blue!

I know you are filled with certitude

And I would walk over high mountains to get to only you!

I see you on many summer days

And when your pit-bull dog began to bark

I can love you with so much gratitude!

You know

I am filled too with certitude

I see you like rolling your eyeballs

And like a man standing tall

Who can turn on your lamp within one's camp!

Today let me take you to the "Thugs's Ball"

And never give any of them

Your phone number to call!

Sweetheart

We are always going to have a ball ...

Keep!

You are deep
Love to sleep
Wisdom you never love to keep!
On your face
You can see God's Grace!
You love the human's race
And in society
You know your place!
You love being around stars
And stopped going to bars
One day I shall light your flame
You know I got the best real game!
If you pass up my love
You will have no one else to blame!
You know I am not a lame!
You are deep
Love to sleep
My love for you
You would surely love to keep!
I myself is deep!
Only when I'm truly tired
I love to sleep!
Your love is something
I would love to keep!

Hieroglyphics Today

Carve our love
Into the hieroglyphics today
Someone will inherit it!
They will honor us
People write their names on walls
In courtrooms's bull-pens (Judges's chambers)
Mostly gang bangers & real criminals
As if someone cursed them yesterday
Some years ago
And today!
Can you envision their plight?
It's a sad sight!
I am so glad that we haven't served any time in a jail cell!
Our love will become someone's mythologies
Or story to tell!
But someone's phillosophy!
Carve our love
Into the Middle East Hieroglyphics Today
It will blossom
And ignite writers to talk about it!
I heard some people talking about us yesterday!
They spoke of our love that we have today!
They know we never have to wear a mask
And be about our love task!
My woman is my future and best past
We are making sure our love will always last!

I Will Always Love My Woman With A Jones

I will always love
My woman with a jones!
We will never have an orgy!
She loves the blood that exile from myself!
I will always be her rising sun
And speak to her in a nice tone!
She is more beautiful than any other God's Creatures
With beautiful features!
She is never shy!
Her skin is never dry!
She is so damn soft
And God gave us the meaning to understand why!
Some people think she is from the South
Until she open up her pretty big mouth!
We love to sit down by the sea
And when we catch a cold
We love to drink some warm tea!
Yesterday we gave up eating pork!
On our wine jars will always be a sealed cork!
I will always love
My woman with a jones!
Together we love to record dimos in our favorite' studio
And listen to our songs playing on radios

Working Whore

Sometimes I watches

The Windy shore'

And give a few dollars

To a working whore!

With me she loves

To spend some privacy

And wish she could live with me for some centuries!

On the hoe stroll she be shaking her tail!

I know she be scared

Hoping she wouldn't never end up in jail!

I be wanting to take all the whores

Working the stroll from their daily nightmare!

They know I am a good hustler

And very rare!

Many of them wants to cling to me

A certain one never wants to say farewell!

She had dreams of dancing on Broadway

Until she became a "Outlaw" on a broad summer day!

With her story

There is much more!

One day I may fall in love with a whore!

Sometimes I watches

The windy shore'

And still give dollars

To a fine, sexy, gorgeous whore!

When I Bumped Into You Baby

When I bumped into you baby
It was a miracle!
I was looking for someone
To give my heart
And soul to!
God blessed me with a exquisite beautiful sexy lady!
Lucifer tried to chase me away
On the day I met you baby!
He tried to convince me
You wasn't the right woman for thee!
But I know you was right for me!
I am glad that you are from Atlanta, Georgia
No! I haven't been incarcerated in Angola!
I love driving my Eldorado down to Colorado ...
In this life
Will you ever forget my face?
Your love I love to lace
I know you are filled with God's Grace
Today lets go over to your parents's place
My love for you they will embrace
I can see all of us sitting at the dinner table
Saying God's Grace!
When I bumped into you baby
It was a miracle!
You was searching the land to find a good man
And you are glad that you met me
And God blessed thee with a beautiful lady!

Twins

I won't let your love
Run me insane!
I am not in love with Jane!
Yes! I have another child
She is not in the Welfare's Files!
I always take care of my child!
On certain days we run five miles
I bought her her first vehicle
And never run her mother around in circles!
She was my first wife
In this beautiful life!
I will always love my daughter!
I have never been selfish!
I will always be your child's father!
I wish I could have a set of twins
It would be amazing
I would love for you to give birth to the babies!
I am not fooling around with some other ladies!
I won't let your love
Run me insane!
I will never be in love with your Sister Jane!
I never slept in any Holiday Inns!
Tonight I will pray to God
For you to give me a set of twins!

Attitude

I sit inside my dark bedroom
With a messed up attitude!
I hate sitting in my little island solitude
Feeling angry at my gorgeous woman and
Having a fuckth-up attitude!
Years ago
I could have became her bridegroom!
She had me by her fishing hook!
I fell in love with her knowing that she was my soul-mate
And not because of her beautiful looks'!
She was so damn shy
And I learned the reason why!
I couldn't pass her by!
Now she makes me want to cry!
I think she is cheating on me
And with my lousy older brother!
She tells secrets to my baby sister
My love for her is growing sour
On every hour!
It is time for me
To find me a new real rose flower!
I know this other woman
Who wants to be by my side
Her fate and love she longs to provide!
Tomorrow she just may be by my side!

On Some Days

On some days

I love looking at the clouds

On some days

I feel so damn proud!

On some days

I scream - "Say It Loud, I'm Black And Will Always Be Proud!"

On some days

I have a lot to say!

On some days

I get my ways!

On some days

I pray toward the East

And refuse to act like a beast!

In some of my day-dreams

I travels to two unknown galaxies

Filled with incredible mysteries

On some days I feel sluggish

And thuggist!

On some days

I love walking among fresh lilies

And crowed cities

On some days

I like to fly away

And sing songs throughout the days!

I Miss My Father!

I miss my father!
He died last year!
He had cancer
And loved raising all his children
He never cheated on my mother!
He stopped me from eating pork
And love to work!
He left me his wedding band
His little wooden house
That he build with his hands in the South
Upon a six acre of land
He taught me to love my foe
And gave a lot of wisdom to my Friend Joe!
He always let me drive his car
Showed me how to save money
By putting pennies, dimes, quarters
And dollars into a piggy bank jar!
My life he tried to guide
But with my friends
I took the wrong ride!
I miss my father!
We loved eating "Butter Peacan Icre Cream
And he wanted me to play pro ball
With an unknown basketball team
He knew I was a good baller standing five-eight
And couldn't grow any taller

He encouraged me to become a lawyer
So did my beautiful mother!
I miss my father!
He loved his daughters
All my brothers
And our mother!
I miss my father!
I miss my father!
I miss my father!
So does my sisters!
So does my brothers
And our mother!
Likewise our sons and daughters!
Also, their brothers
And sisters!
Thank God I was able to meet their fathers
And mothers!
I miss you too grandfather
And grandmother!

Brothers Are Being Shot

Brothers are being shot by cops

Got to stop!

We don't need to see fathers

Trying to kill corrupted cops

And other brothers in opposition of an Organization

Living not on the same block!

We have the right to keep our glocks!

Brothers are being shot on our neighborhood blocks!

All this mess is got to stop!

Mothers are crying!

Innocent babies are dying!

Cops are lying!

Sisters are now jailing

Like innocent and guilty brothers!

We are losing so many beautiful mothers

And upstanding fathers

As well as stomped down brothers!

Brothers are being shot by cops

Got to stop!

We know who killed Dontre Hamiton!

Derick Williams!

Micheal Brown!

Freddie Gray!

Tony Robinson!

Daniel Bell!

Fred Hamiton!

George Jackson!

Cousin Harris!

Tamir!

Tookie Williams!

Minister X!

Sandra Bland!

Walter Scott!

Milissa Williams!

Timothy Russell!

Nat Turner!

Demark Vasey!

What happened to the Judicial Law that we once saw?

Justice lacks for the "Innocent Blacks!"

And all the above killings shows the facts!

Who killed Kinah Anderson?

And where is Alexis Patterson?

Return her to her home where she belongs!

Within our neighborhoods

We must restore our mothers's happiness

And the love amongst brothers!

Also stop killing your lovers!

Every baby needs a father

And a mother!

Brothers are being shot by cops

Got to stop!

We don't need to see fathers

Trying to kill corrupted cops! Lets take back our blocks!

Prisons Are The Devil's Playgrounds!

Prisons are the devil's playgrounds!
Their backyards are filled with good brothers
And little children's lonely mothers!
Society don't know about their graves!
The public really don't know
Truly how the Prisons's Administrations behaves!
Inside tiny cells
Some men
And women goes insane!
They keeps away men returning to society
Who acted like Jessie James
And love pushing heroin
And Maryjane!
Sometimes short timers pretends to turn their lives around!
Prisons are the devil's playgrounds!
They make some men
And beautiful women feel like bloodhounds!
Some turn gay
Some become gangsters
Some become saints
Some become lames
Some become preachers
Some become teachers
Some makes the devil's day!
A lot of shit goes on behind the walls
And only those truly knows who took a fall!

What really goes on behind the prison walls
I can never give it all!
Lets keep our brothers
And sisters from living in the devil's hell!
We wasn't born to live our lives in a jail cell!
Being in prison seem like being in hell!
Prisons are the devil's playgrounds!
Their back yards are filled with good sisters
And young & old brothers!
Some are going to their graves
And the Wardens see just how many of them behaves!
Inside the prison cells
Only lies pure deep hell!

Everyday

God we need you everyday

To bless our sons

And daughters!

They are dying so damn young!

Preachers have tried saying our fathers

Mothers

Sons

And daughters!

Wake up brothers!

Throw away the drugs!

Gangsters show our youngsters that true ghetto

And Mississippi Love!

Teach them the real estate game!

Make sure they go to school to earn a name

In the business world's game!

God we need you everyday

To bless our sons

And daughters!

Let them become successful mothers

And fathers!

I love all you brothers

And sisters!
