⇒ my
name
is sticks...

...and i
don't
drink
milk

Why?...because...

...Cows have
been
contaminated

I was told to stop eating
from the moo moo's 'cuz
they're being genetically
modified...

contaminated with
toxins by the mega
corporations

your wondering who
told me all this
arent you...

you wont believe me...but...

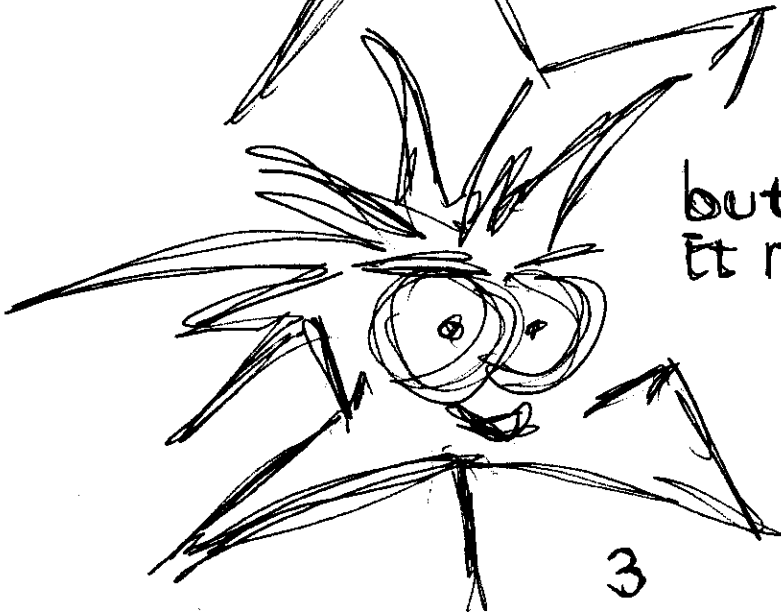

i can hear
VOICES in
my head

i know they're
in my head...

doctors say
i'm schizophrenic

but i know what
it really is

IM TELEPATHIC

im evolving into a
neo sapien.

i hear lots of
voices...

...but don't tell
those jesus nuts

they think it's
satan

dum asses

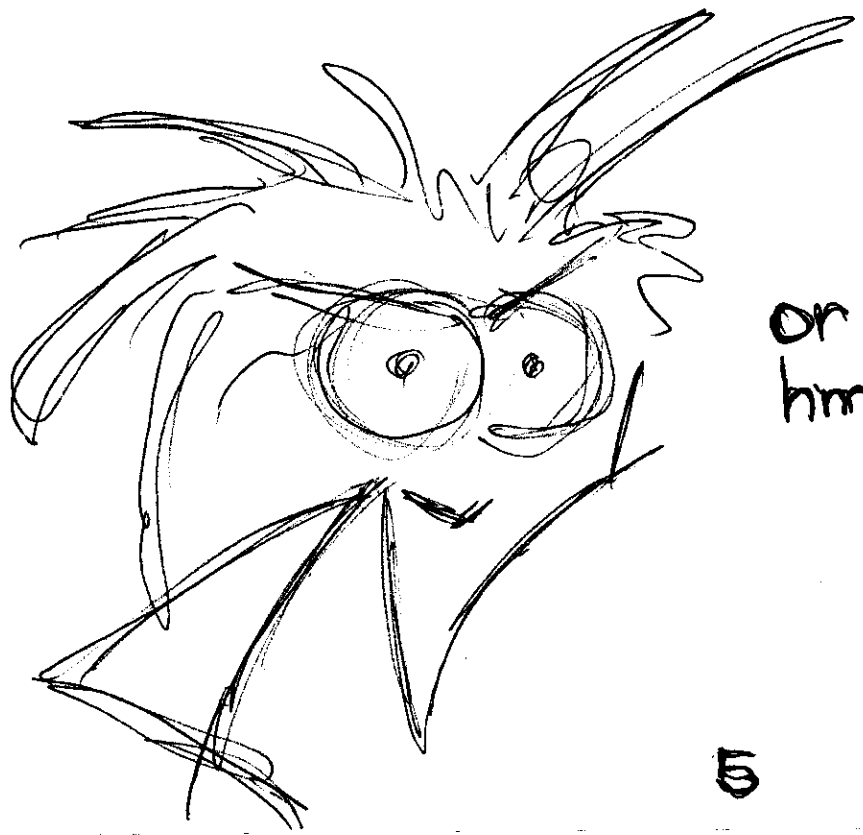

why can't it be
jesus or angels
how you think
they spoke to
paul and moses

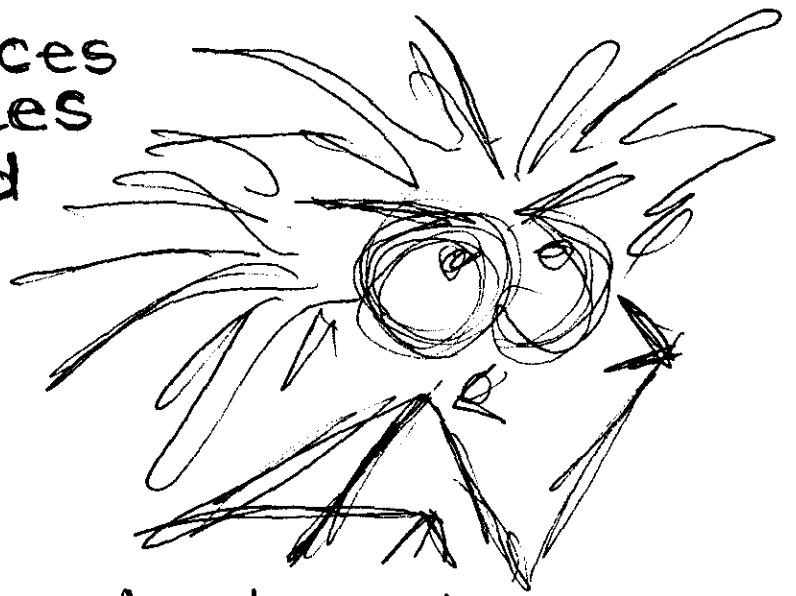

they aint have no phones back
them

or did they...
hmmm.

anyway, these voices
I hear are the voices
of dead people and
aliens

yep dead people
and aliens

oops. Ex-tra-ter-res-tri-als.

and it's those
extraterrestrials
who told me
about the milk

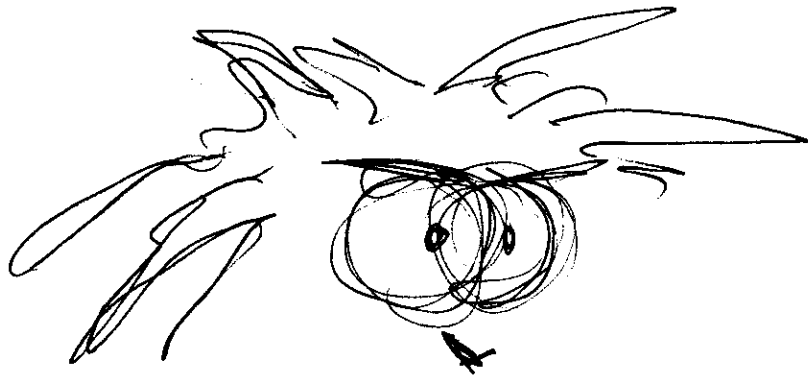

they told me other
extraterrestrials
are socially
engineering the
masses of
mindless
consumers...

putting chemicals
and toxins into the
food supply

and milk is
one of them...
the,
moo moo's

they also use
moo moo's as
surrogates to
carry
genetically
engineered
fetuses

can you say...
cattle mutilations

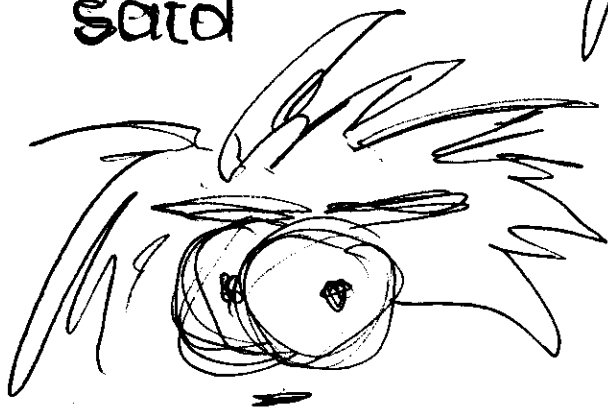

but anyway
i won't drink
milk

you think i'm
crazy don't
you...
...that's
what my
psychiatrist
said

but i still
won't drink
milk <:

WHAT YOU
THINKING 'BOUT
STICKS?

Peep this science
little voice in my
head

If angels
are from
heaven...

...then angels
ain't from earth.

Okay

And if angels
ain't from earth...

... then angels are
Extra-terrestrial

Okay

Hold it
now

If God is
from Heaven...

...then
God ain't
from earth

I'm with you.

And if God
ain't from
earth...

...them...
...hold it...

God
is

Extra-terrestrial

WOW
and they told you not
to drink milk
