Winter frost glazes  
Window pane fractured in hues  
Sunlight, warmth, rainbows

## Winter Song

Ancient melodies  
Flowing through  
Your heart-

Touching upon  
That stream of reflection-

I can see  
The sound of your song,  
In warm sunny rain-  
Falling all around me,  
Offering night-scape serenity-

Under star-lit filled nights,  
Our heart's  
Hold tight,  
To the light-

This song of our's;  
It's melody, in Autumn lyric  
Of beauty, love and hope-

A comfort in stillness  
To our Winter song,  
Until we are together,  
Again-

Fragrant orange blossoms  
Sweet aqueous within- flows  
Peal,taste; heavenly

To That River

The inclination  
To be overcome  
I yearn to be free

To be caught  
By the catch train

I'll be leavin' today  
For that place  
Of nowhere

Takin' "My" walk  
To that river  
To drown my heart  
and  
Heal my mind

I don't care  
It's the inhale, exhale  
That's gonna' kill

Yep, I'll take  
That one last guzzle of beer  
and  
Be on my way

## Extrication

Witness Humankind,  
Become mankind.  
Sepulcher;the last residence,  
Of all love,friendship and desire.

A stoker of Hell Fire;  
A fool for the servant to fuel the flame,  
Of enmity.

Fanning abominations-  
Observe,spark and ember,  
Flutter sky-ward.  
Spirit;a cryptic disguise.

Shackled to self;  
No escape.  
Restless unforgiveness-  
Venomous balm,  
Soothing gangrenous'wounds.

Festered ego,  
Grasping to hold indifference.  
Walls collapse,door-ways splinter,  
Shattering to a million needles-  
Piercing,heart,mind and spirit.

The mystery begins again-  
The cataclysm,  
Of Birth.

Of Sin

Heart beat resonant;ten times,  
Ten thousand times,a million times.

Sounding toward the silhouette of heaven-  
Reflecting light.

Each thought in mind's eye;  
Touching sounds-  
The music of spirit.

Unknowing;grasping to hold-  
By grace alone,  
We are heard.

## The Key Maiden

Within a concrete palace;  
The Knight, a contemplative,  
Pleads his petition.  
Upon the Jester's prodding,  
"A" decision made.

Never will the Key Maiden return.  
Talking of this, talking of that-  
Words are sawn like oak trees;  
Chopped and cut.

From reason to disillusion,  
The Master mounts his steed-  
On saddle high,  
To gallop off and sow his tears.

The mourning night begins.  
Sunset; a star filled sky-  
At last, a glance toward heaven; hope.

Winter in summer  
Tear drops fall cleansing the heart  
Reflection in Time

## Heat

Tennis shoes on asphalt  
A thousand, countless,  
Endless times-  
Their step and run measured out.

Beyond; glittering, reflecting, teeth-  
Forever watchful, not to harm;  
To reconcile.

Heat. Summer sun-  
A conflagration of beating hearts,  
Longing-  
To be loved.

Distant tunes of flute  
Deep resonance- notes sound  
Music in heart thought

## Liaison

Tributary;only one-  
Liaison for those forgotten dead.  
With sentiment of gift,  
Boquet;of the lily kind-  
Nothing to be said,no profound  
Statements;except this small  
Elaboration:

Of the lion-hearted,  
An exception to valor-  
With sword in hand,  
They will commune,  
On feilds'of battle strewn.

Languishing;their brooding,  
Does no one hear?!,  
Will no one listen?,  
To silent shouts of terror.

Leviathan of war-  
Decimation!,a single breath-  
Euthanasia.

## Empyrean

Solitude among myriad thoughts-  
Purifying to your heart;  
Forever night.

Seeking the touch of your spirit;  
Desire to embrace-  
To listen,  
For your song.

Infinite notes-  
Of symphonic time;  
Illumination.

Celestial nirvana;  
My sole aches-  
To be in harmony;  
To be of-  
The Blessed.

## Eternal Pyre

Walking among strewn seed-  
Sown to harvest,  
Upon ashen fields-  
Mixtures of blood, memories,  
And loss.

Sojourns taken-  
Scarred in desolation,  
Night deamons-  
Enveloping each dream.

Seeking reconciliation-  
Melding; the eternal pyre.  
Anguish. Molten flesh, melting,  
From the bones of hate.

Distant wailing, lamenting-  
In catastrophic harmony.  
The mourning of millions,  
For those yet to be.

Perilous the trek-  
A pestilence within-  
Amnesia, mankind, mankind...

Symphonic night sounds

Summer evening in rhythm

Bamboo viper hunts

## Coloratura

Vortex of annihilation-  
Skepticism.  
Longing to believe-  
Wanting to "Become" faith.  
Pain,compassion;  
The cast of love's design.

Watch-fires fade,  
Embers glow,warming cold thoughts-  
Re-calling coloratura voice's.  
Harmonic passion,  
Embracing the infinite.

Opaque prayers-  
A scene of heart-break,  
Plummeting toward flames of darkness.  
When will the fall-  
Change Season?.

Nocturne

Streams upon spirit  
    flowing toward hope

Sanctuary found  
    among cascading tears

Love's embrace  
    sentiment of  
        future past

Dream; tranquillity with you

Now standing alone  
    forgiveness beckons  
        to all  
            who love

Tribute Of Honor

The glory of prayer,  
A beginning  
To all healing-

On battlefields  
Apart to forever,  
Of forgotten time-

Remembrance,  
In epitaph  
To those we lost-

Our enduring love-  
Tribute of hearts,  
In reverence  
To honor and course.

United by valor;  
The light,  
Of countless souls shine,  
In blinding illumination,  
On distant shores-

## Soliloquy

Empty heart-

Forgiveness, a forever thought,  
A never to be ever.

Yes-

Nowhere to be found,  
A diamond tarnished.

Remember the "I" in "You"?,  
And that brief moment  
We were two.

Eternal time-  
A last day,  
Somewhere to be forever-

## Luminescent Sea

I walked between dreams-  
Path-ways strewn  
In blue-white flowers-

Aching in reason to hold you,  
Never to let you go-

Couldn't we just become,  
A heart of one?-

Ancient melodies  
Flowing through your soul,  
Touching upon  
Rivers in life-

I can see the sound.  
Of your song,  
In warm sunny rain  
Falling all around me,  
Offering night-scape serenity-

Under star-lit sun filled days,  
Our heart's hold tight,  
To that light-

This song of our's;  
It's melody,  
In Autumn lyric,  
Reflecting beauty, love and hope-

Luminescent Sea  
( con't. )

Giving comfort and warmth-  
Will you not be,  
" The Dream " ?,  
Will you not become,  
" The One " ?-

Years gone to tears;  
I settle to know  
You're still there;  
Not too far away-

Always present;  
I reach out,  
Take your hand  
And realize you  
Understand,  
The path of our direction-

Cast upon a luminescent sea-  
To flourish  
And become,  
A life of one-

Tempest clouds' lightning  
Flashes burst in silhouette  
Summer heat; bone dry

## Winds Of Change

Dreams.  
Cloud scape reflects,  
Upon a star-lit sea-

Meditation:  
Compassion to all  
Living things-

Peace and serenity,  
To all who inhabit  
This planet-

Brewing storm,  
Lightning, rain,  
Here, now!-

Waiting upon,  
Winds of change;  
Today, Tomorrow?-

Tranquillity.  
Distant rainbow;  
Horizon of sunrise,  
Horizon of sunset-

Wayfarer sea-bird  
Glides effortlessly above  
Sea mist wets my eye's

Of Unknown Place

I stand-  
On the edge  
Of millennial time-

Gathering stones  
Of my heart-  
To cast away,  
Yet another day-

Here I repent;  
To the G-d of unfailing love.  
I am visions  
Of "I",  
In a cosmic mystery-

Waves crashing  
Upon a shore,  
Of unknown place-

Endless; the caress-  
Images of imagination-  
Accounting;  
Each heart-beat.

The inimical progress,  
Of my kind.

## Aphorism

Go. Let your eye's see,  
And your arm's carry  
Burdens of time-

Inheritance of life;  
Disappointment, worry,  
Sorrow-

Become silent;  
Become the language  
Of forgiveness-

Embrace the wounded,  
Bind broken dreams-

Humanity of compassion;  
That is our destiny-

Inhale;  
The-Breath-Of-G-d

## Resurrection

Winter slumber,  
Over forests'  
Of evergreen life-

Her failure  
To surrender;  
To accept  
A put upon condition-

Grievous, flagrant deeds;  
Ax and saw  
Do their cutting;  
Their killing-

She knows,  
Time itself  
Is savior!-

Those begotten  
To fall,  
Shall be,  
To offspring  
Of the great one's,  
Least we see-

Only eons  
Will display,  
The loss of millions,  
And the resurrection  
Of the few-

Renew.  
A life given,  
Never to have been,  
A sanctuary left in ruin-

Resurrection  
( con't.)

Within her glade's  
She rests;  
To begin again,  
A forgiveness  
Within forever-

Himalayan peaks

Ice-flow carving granite cliffs

Earthquake shatters peace
