This is a Spiritual Book
no Awakening of Senses,
Thought Provoking, and
A very light & interesting
view.

NOTE: This Book is set up
in Pamphlet format

AWAKE

By Geoff Newman

Dedication

To all those who wonder.

We are spiritual beings experiencing a mortal life.

Over the passage of time, we have forgotten so much. We have forgotten who we are, where we came from, where we are going, and why we are here.

"Am I" ?
I AM.

We are.

The answer is simple; we have only chosen to
make it hard. We have disillusioned ourselves.

I've missed you!

Do you remember me now?

All the answers you already know, you only

need to remember.

You only need to remember all the time every

moment.

STATE PRISON
CCL-TEHACHAPI
4A HU 2

Eternity is like chasing the horizon, no matter
how fast you move towards it, you will never

reach the horizon.

Everything is as it should be; everything you have done has got you to this point in your life.

Now he tells his children not to eat from that tree over there, when we tell our children not to do something, what do they do? They do what we've told them not to do. So God not being a stupid God, tells His children not to do something, which tells what?

Share all that you know do not hold back anything
you only holds us all back.

STATE DEPARTMENT
CCI-TEHACHAPI
4A HU 2

He was talking to US.

Do not fear the unknown.

Fear is the mind killer.

SON
CCT-1111ACHAPI
4A HU 2

Our perception is off we must fix our

perception. We must stop lying to ourselves.

We have now advanced our awareness; we have made a quantum leap in our understanding.

We are responsible for our own actions; our actions have their own reaction. We sometimes see them as consequences that are perceived as bad.

We are going to be doing this a longtime, all
eternity.

ELSON
CCI-TEIACHAPI
4A HU 2

We will remember who, what, and why we are.

It is all we know.

Release your guilt, release yourself. Letting go of
our guilt releases us to have more eternity.

All that exist is now, yesterday will always
remain yesterday, and as tomorrow will not
come it will always be tomorrow

That's just how everything works together, or alone.

"All One".

It is all just part of our journey.

You are always right you are doing what is right for
you right now or you wouldn't be doing it right now.

We are here because there is nothing else to
do.

Eternity is a longtime.

This book is a part of the same whole; this book is a part of you.

There is an opposite of most things; those things that have no opposites are a combination of the things that are opposites.

As we become more aware the world and all that's
on it will become more aware.

If you take equal parts of black and white and
mix them together, you will get grey.

Mix hot and cold you get warm, there is no
opposite of grey or warm.

All road lead to one.

Evil has no opposite think about it.

We will take part of man and create a new man.

(Cloning,) as God took from man to create woman.

Go back to the beginning with the tree; God

never told his children "Do not eat from the

tree of good and bad. He said not to eat from

the tree of good and evil. Because God created

everything, and everything is good, nothing was

bad.

All things on this world are evolving, only at
different rates of speed.

Evil is our free will to choose for ourselves what
the bad things are, out of all the good, God
created. We are given a choice, free will which
is evil.

Everything on this world has come from this world,
everything is alive.

Dear God,

The jig is up, stop chasing your tail,
Stop lying to yourself, you are everything.

Even our electronics today are very advanced. As our electronic devices become more advanced, we become more advanced and we make our electronics more advanced. Do you see where this is going?

We are Gods debris.

For instance the fossils they collect and study are
dishware, bowls, plates, cups, etc....

They find a clay bowl, a tea cup and a crystal bowl.
They will see how the dishware evolved from the
clay bowl, plastic, to the crystal bowl. Do you see
the evolutionary process?

Never be sorry it only makes others feel guilty
our guilt is holding us all back.

We as organic beings don't see other things as being alive, like a large rock, if we look at the rock over a period of a hundred years, we would not see any kind of change in the rock. To God a thousand years goes by in a blink of an eye. In that period of time God would see all types of changes in the rock.

This too shall pass.

We all have eternal life, we will exist forever,
and systems of energy never cease to exist.

Our essence is energy moving at different rates of
speed.

We will never cease to exist.

Say all life on earth passed away, and a alien race comes to this world to study evolution and collects fossils. The aliens are bias and do not differentiate between organic and non-organic, they are just looking at the evolutionary process.

Do not feel guilty everything has happened for

a reason.

What has happened, is through this symbiotic relationship with us humans, the dishware has shown its usefulness to us and has evolved, only its evolution has occurred at a different rate of speed than ours.

We will experience everything until we perceive

things as they truly are. The truth will set us
free.

We are locked in this symbiotic relationship with
our own electronics; we are evolving each other
almost at the same rate of speed.

Everything God created is good, and a part of

God. For God to say something of himself is bad
would be evil you cannot say something of
yourself is not yourself.

Remember even the electronics were made from
material of this world.

To you a tomato may be good, to some a tomato may be perceived as bad. What may be perceived as bad at one time to one may be good to another at another time.

Eventually we will create robots like humans, then even cyborgs, eventually human beings.

If you were to mix equal parts of good and bad,

what would you get?

God in the beginning created man from the dirt of

this world.

Some say the opposite of good is evil.

It is not. Remember there is only one opposite
to good, that is, bad

We will be like God we have ate from the tree of
knowledge, we are already like God.

The opposite of black is white, the opposite of

hot is cold, and the opposite of bad is good.

We are all individuals but part of the same whole.

There can only be one opposite, it must be a

combination of two opposites.

The gift is the present you've given yourself.

You have left this message for yourself, to find at
this point in your journey, or you wouldn't be
reading it right now.

"To where"?

"To wherever you wish to go."

Its how it always has been and always will be.

You are GOD.

We are GOD.

We are all on this journey together; no one is more
or less important than the other. We are all the

same.

Why worry? Be happy we have given ourselves a
beautiful gift, a wonderful experience an eternal
journey.

All is good; all is well all things will be answered

by you

Nothing is Bad all is good, is God.

The alternative is nothing.

Everything that will ever happen is made up of
countless connections of individual choices.

They shape every moment of all eternity.

Do you remember who you are now?

Facts cannot be debated; the truth is what you are
looking for.

There is no Hell; it is only a lie we have told
ourselves.

Fear and worry will only slow us down there is no
reason to fear or worry. We are all that there is.

God said let us make man in our image, in our

likeness, who was God talking to?

This journey will never end; it just grows to a larger

life.

The Bible says, "In the beginning God created everything and it was good." To God nothing was bad, He even created man and woman, His children.

We are still in the garden.

(REMEMBER)?

Re – Member

Welcome home.

We are going to the same place we came from.

Eternity.

I love you.

With an open mind, take this journey; see
where it will lead you.

So our journey begins.

Nothing was in the beginning and nothing was
God, from the nothing came a question?

"Am I"?

So the journey began.

Be fearless we can't truly ever die, we are eternal.

Immortal.
