They say stuff happens / I tried to fix  
this marriage / but infidelity happens on the  
average / It's hard to stay, but easy to get  
up and vanish

So many hungry and homeless kids roam  
the street / It hurts my heart and make tears  
roll down my cheek

What happened to loving our brother /  
when all we want to do is rob and  
shed the blood of our brother

Love don't live here / Even though we  
grudge, I'm still here / I could stay but  
I rather shift into fifth gear

Black mask black boots / they made me  
step into my black coats / I march in peace,  
my hands up don't shoot

I'm from a different culture / Money  
so ultra / They want to see me fall, so they  
can sweep down like a vulture

I'll bring it to your front door/  
I tell my homies to play the back field, while  
I'm rushing with the front four

Lord knows I don't want to die by my own  
kind/before I die by the sword I'll die by my  
own nine

It must be something I said, let's change the  
subject/ I see it got you all upset/ no mo'it/  
I'm a poet/ I wish you would want love instead  
of more sex

I'll ink ya like a octopus / these dudes  
gone make me transform to optimus prime/  
I'm so optimus when I'm poppin the nine/  
who got your back when I'm poppin ya spine

I look to the sky for a opportunity/  
I'm on the rise like a stock, bond or annuity

I'm all around like a cypher/ what goes  
around comes around somebody has to pay the  
piper

I'm shining like two pearl quaters/  
CAN't beat them join them new world order

You talking real flagrant, that means more free throws/  
no free loads / we just reload / And leave a hole in your  
head the size of a peep hole

I love my brothers, they All diamonds/  
I'm a put them Around my neck so we All a  
be shining

I be attracting them like a magnet/  
I guess the matrix still leaves them stagnant/  
I should copyright my style, better yet get a patent

I just had my hands Around his neck to  
change his accent / I'm sorry it was just a  
Accident, / or intentional / theres no checks moving  
without my initial

They say no one CARES / well I CARE /  
If life was a stock I'd buy All the shares

I'm the man in the room / I'll run circles  
Around you like a fan in the room

These dudes say they box cutters / Glock busters /  
these dudes actors, new releases out of Glock buster

Don't watch me stay focused on the cameras /  
I was born with a crown like a pair of antlers

I send a message like a Morse code /  
barrel on my gun bigger than a horse nose /  
And I keep that heavy metal on me so cock and roll /  
And when I start squeezing they drop and roll

I'm ciding shot gun / hanging out the window with  
A shot gun / letting off shots that make the block run /  
lead will burn ya like the hot sun

The feds be eyeing in / what you driving in is  
what you dying in / I keep a mask with a snake  
firing pin

I'm a different caliber / the one that penetrates you  
then hits your passenger

Shout out to T.I. And grand hustle / I make dudes  
respect my grand hustle / that's word to bank head /  
the front of my cuger look like a tank head

I keep that iron man / I bring heat to these  
dudes like a frying pan

Where ya armor at / I speak facts like a almanac /  
And I'll make it rain where ya mama at

I salute my comrades / I'll lead you to the  
north pole like a compass / You'll never get it anyway  
dumbass

Is that pistol legal / now it's just a desert eagle /  
You got to watch the shits come out in a sequel /  
As they penetrate your cerebral

You a virus, parasite / I spit heat hotter than  
5,000° fahrenheit / when I was young I used to  
stuck many taller than your parents height

I need to see where were standing /  
you so demanding / I'm so commanding /  
where are we without understanding

He tries to make it a competition /  
I just take notes and write it in my composition

Memory fades / energy stays / let's live in the  
moment / I'm a different component / I'll bet like I  
never owned it

I thought what we had was real, but all I see  
is fiction / I guess the story we lived was  
complete fiction

I'm so lawless / You so flawless / everything perfect  
About you like a goddess / be a big girl for daddy  
And take all this / And I love her sexy ass /

lil mama so damn she came see me through plexi glass /  
things changed now she having sex for cash

How can I regain my freedom / when I'm trapped  
in a living hell by demons / It's hard to live but  
easy to die, so does life have a meaning to why

Now I can see it from your point of  
view / they look to place the blame and they point  
at you

So much pain inside / we hold tears back  
that's what makes it rain inside

Special operations/ Cooperations/ why do we  
have the wrong people under observation/ lets stop  
the people who try to stop the nation

If you have a price on my head get your  
money back/ they fumbled the rock like a running back/  
whats a tree to a lumber jack

Dont be a suspect turned victim in a murder case/  
I hit him with that grill now they call him  
burger face

Somebody pray for the holy one/ now he want to  
call on the holy son/ I stay full body armor like  
a holy man

Dont make me turn into a mad russian/  
or I'll be all in your face like I'm pass  
rushing

I'll bring it to your door mat/ Kick door  
your residents and lay you and your dog flat/  
All they seen was three suspects in all black

You really don't see the gift of life/  
you see the attention on you so you shift the light/

Through All the curses / through All the humor /  
I even made it through All the tumors

I have no patience / throw away get the job  
done, minus the shell casings

This life is temporary / I'll rest when I'm  
in the cemetery / Who knows what consequences  
my decisions carry / my visions carry / it's All a  
war inside myself like the military

Is the northside the darkside / Is there life  
where the stars hide / that's where my demons  
hide / I ejaculate and release them when my  
Seaman rises

The drugs on the street are endorsements /  
we are surrounded by corrupt law enforcements /  
And politics, I can touch basis on a lot of  
shit

Theres so much confusion / I can feel it  
but what we see is just An illusion

How can I regain my sovereign / if All they  
want is A offering / Sacrifice, / I'll still be battling  
in the after life / And if you think I'm the  
best ~~and~~ stand up And clap twice

Warning, citation / chopps make these dudes start  
migrating / And send the rest into hibernation

Warning, cautions, I feel nautions / like I seen  
a dead carcass / thats the reason I keep A extra  
clip to unload on the heartless

Time is the essence / You deserve the highest  
blessings / At the time we were both blind And  
stressing

I na you hope I'm fine / I cope just  
fine / I was depressed when I wrote that  
line / I try to block it out but it still  
bloats my mind

I keep order within chaos / I sent the order  
to blow ya face off / if you think I just made  
a mill then your way off

I took the wrong turn, it's like the switched  
the accus / I want to fly and live free in  
the sky like a sparrow

I cried blood tears for years, till they made  
blood slats / they roll down my cheek to my feet  
and make mud drops

If my pain runs deep what can a hug stop /  
I'm gone make the world feel my pain through  
these fuck shots

Why are the funds being raised for /  
if the funds been paid for / So why do my  
people still have Aids for

We are so universal / let's come together and  
form a human circle / we can all share love  
as a virtue

They only call when they need us/  
They see us hungry but dont feed us/  
So some people turn to Jesus/ but, he who  
once love will decieve us

These dudes shooting cold sublemerals/  
I spit that hot stuff like the seaman  
in my genetals

Robbing me is a mission impossible/ besides  
life I'm the hardest obstecale/ it's real  
optional and obsolete/ I move so fast you'll  
think I have a pair of boxers feet/ I do  
busting where yo pants meet/ hollow tips be  
shaper than deacakas teeth.

I made it out the projects/ with a picax/  
I'm a fool with it, I'm willing to side bet

I'll send you to meet your maker/ old  
cake ass nigga come meet your baker/ It's  
been so much confusion/ these dudes really  
not that good it's just an illusion

When you see me you better have it on  
yo waist band / somebody pray for him, Amen

All the things you done, I commended you on /  
you was that father I could always depend on /  
even though our arguments used to end wrong

I was angry because I had no part in naming  
you / on top of all the drama people asking why  
I'm claiming you / It was like I was ashamed of  
you / I love you and enjoy raising you

Soft words speak in the distance / shall do  
anything for the inches / I can paint a picture /  
shall do anything on a pint of liquor / and shall do  
anything to paint a nigga

Out of sight out of mind / she tell you she  
gone hold it down / but she gone as soon as  
you sign for some time / Now you think things  
gone get more better / months go by and  
still no letter

By: Aaron T. Black

When you were out it was all good/  
caddy riding early paint switching lanes gripping  
wood

Now the manny gone/ I was chide, and  
now the bunny gone/ no more looking back,  
no more running home/ no more late night texting  
on the phone

When we met my life took a recourse/  
now the love gone no remorse/ now it's time  
to rejoice/ now the only thing we have between  
us is a divorce/ your love had me over the  
edge/ I'm done with us that conversation is  
dead/ it seems that you were happy with the  
other guy/ that's when I realized/ life is  
better on the other side

How can you stand to look at yo self/  
when yo family wittin staring to death

I'm brain starving/ the main parking/ And the  
rent due the same morning/ days get hard and  
nights get lonely/ I'm a cock that .45 when my  
sans get hungry/

forget my own needs / I got to feed them  
they my seeds / And as of right now food is what  
my home needs / I see hustling dont count as  
A good deed

They tried to deprive me, / turn around and  
advise me / but I'm tired of living in a world  
where all lies be

"  
How can you see with your eyes close / thats  
why lady justice need to remove that blind fold

People try to follow the light but all the signs wrong /  
why do they keep tabs on all our phones /

Beware of the serpent / thats around the corner  
luckin / Im for certain / they rule and conquer just  
remove the curtain

Look beyond where the stars hide / why are they  
making us drink fluoride

By: Aaron T. Black

I defied the law of gravity / I try to  
elevate but its like they grabbing me

I dont belong to this world like A Alien /  
Im misunderstood like the word homosapien

Finally I feel awake again / a deep breath I

I walk alone in search for guidance / but  
my only understanding is defiance

Im trapped in the matrix / full of jealousy and  
hatred / And its like I cant break it

I been through trials and tribulation /

Shell do whatever for that real word /  
And shell do whatever to make me feel good

I'm a SAVAGE, Tim a SAVAGE / I might  
grow dreads to get bob marly status / ya word  
to bob marly / me and my homies rappin wheelies  
on them large harleys / white dudes saying dude  
you so narley / I go hard without a ring  
like Charles Barkley

I bend the corner clutching on my  
handbrake / Till beat these dudes down till  
my hand break / and leave them flat like  
a pancake

My next child will have my next smile /  
I still love you like my real son not a step  
child

The feds they be even in / what you  
driving in / is what you dieing in / we got shawd  
Automatics with no firing pin

I'll bust you down like longitude And latitude /  
it's a cold world so I got to keep that  
magnitude / I dont need the gratitude / I got  
something that will fix that Attitude

Black and white diamonds looking like A  
Soccer ball / platinum things on my wrist looking  
like barakas claws

How can A pray to A god I dont believe in /

more specific / I just feel so lifted / my years  
just shifted

I'll pull up in your yard in a big bus /  
with 10 thick girls with fix butts / I get soldiers  
that salute me and attend but / then ask questions  
like what, who and then what

I'm headed west no kenye / I'm so awesome  
Some say / with me it's no one way

He yelling man damn / I got this

MAf day May day / people hide on pay day /  
because me and my homies be luckin with  
AK's

I know you fed up / just smile and

Me And my soldiers be marching like  
A drumline / stay out of our way or get run

Strapped like bombs / I keep extra ammo /  
posted in enemies territory in camo

I'm at the top and never coming down /

your face looking like some pasta

I get around like I'm half a dog/ you can  
get a sample and I'm not talking catatons

This is my property / I'm tired of these dudes  
mocking me

Somebody pray for me / s he said shall wait  
for me / she couldn't wait till they had a wake  
for me / just please stay for me

Help me / I been so suicidal and I want  
to take a selfie

The lord knows / how far do the sword  
goes

I pray that the world be in peace / I want  
rest until I'm deceased / the level of my  
attitude just increased

Do we have a price / I should have taken  
the advice / since then I had my heart  
broken twice
