

HAIKU

From Rossini's Point
OF View

Sick & Twisted Poems

By: Jayson Willis (Rossini)

The following pages contain a collection
of Haiku with my own personal twists
for those of you who do not know,
Haiku is a 3 line poem with 17 syllables.
They originated in Japan.

The Haiku you are about to read
are a reflection of my sick and twisted
mind. You will find humor, misery, love, hate,
and much more. I hope you enjoy.

Reader Beware
You're entering a world
Devoid of all sanity

Acknowledgements

I must give credit where credit is due
And I wrote this shit, not you!
That being said, I would like to thank
anyone who reads this and donates to my bank.
Because without the money, I shall surely starve,
But before I die, I'll be sure to carve
My very last words into your greedy heart

But on a more serious note, I'd like
to thank Jamie for being the only person
to believe in me enough to suffer through my
insanity. I'd like to thank God if it was
real, and my Agent if I had one, but both
are nonexistent, so I'll thank all the readers
instead. Each and every one of you are the reason
I continue to write.

inside my Head

Eternal fear of Death
Slowly fading love of life
Nothing between

Misery my only friend
Sorrow forever there
Never alone

Sins of my past life.
Forgiven? or maybe not,
Why should I even care?

Cast away into the abyss
Left to bleed
on the end of my days

Shadow of a man
Empty shell with no soul
Heartless machine I am

my sanity hangs by a thread
as my demons fight
over who cuts

Solitude I've never known
Voices in my head
Constant companions

I can hear the sound
of someone screaming
Now I've lost my voice again

I'm a sick motherfucker
and if you have any doubt
You're a fool

I tried to KILL myself once
But the pills turned out to be fake
oh well

Locked inside my mind
and I don't care to escape
It's much safer here

Institutionalized
From start to finish
The asylum awaits

Tangled thoughts like spiderwebs
Unable to comprehend
Life or death

My soul is searching
for me in vain
I've pushed it out and locked the gate

I trust not myself
To find the way home
I trust not myself at all

I've searched for ages
for a reason to live
only to find I'm dead

I think I've been here before
but I'm not really sure
Is that my blood?

As darkness closes in
my demons come to life
Love is hard to rest

Enter at your own risk
there's no escape
Too late now, you've sealed your fate

Life is an illusion
Death is a myth
All that you know is a lie

Philosophy

I think therefore I am
Bullshit I say!
Who the fuck told you that I'm?

Truth or Dare?
I tell you there is no truth!
I Dare you to prove me wrong!

Who's to say what's right or wrong?
Hate and love are equal
And both cause pain

I can't fix you
But I can tell you what's wrong
You think you're always right.

Here's some Advise
If you're a woman, find me!
If you're a man, Kill yourself!

Only once you learn to enjoy pain
and embrace fear
can you truly love

A wise man once said,
not a goddamned thing!
A wise man keeps his mouth shut!

If at first you don't succeed
Then just pay someone
It's much easier.

I used to think I was smart
I still do
But now it's actually true

If stupidity was a crime
and the price was death,
we'd all be dead!

Fear can save your life
But fear of Death
is truly unnecessary

In the end it's all the same
You leave your past
And nothing else remains

Let go of your fear
Embrace the pain
Experience Reality

Stop searching for answers
It doesn't matter How or Why
It Just Is!

You don't have to be psychic
To see what's coming
History repeats

Hate is necessary
For love to bloom
A dead world would have neither

Life lived alone
is a terrible waste
Find someone to share it with

Why live in fear of tomorrow
Today is here
And it's scary enough

I've thought of suicide
And even tried it
But it wasn't my time

Fate is the only law
That will remain unbroken
until the end

Freedom and Religion

They call Freedom a state of mind.
Bullshit!

Concrete and steel Disagree

My world is a 6x9 cell

Pray? why?

I'm already in Hell

Where is your Savior now?

Does he answer your call?

Wake the fuck up!

Do you know who made God?

Wouldn't you like to?

Just look in a mirror!

Give credit where it's due.

Whether you succeed or fail,

The cause is you!

Emerge with a scream
Begging to return
To the comfort of the womb

Where's the mystery?
We're born just to die,
So enjoy it while you can

I hate your God
But mine doesn't love me
So let's just kill each other

You push your button
and I'll push mine
When nothing's left, who will miss it?

How many in the name of God?
How many must die?
Is there an end?

I've lived in a house
and I've lived in the woods
Now I live in a cell

If there was a God
Do you really think he'd care
If we lived or died?

Someday I'll get out
If the world don't end first
Wouldn't that be fucked up

I try to be respectful
of peoples beliefs
Sometimes I succeed

If they let me out tomorrow
What would I do
That's a good question

I used to smoke crack
And now I'm in prison
But at least I'm sober

If God was real, would I care?
If men could fly, would we walk?
I think not!

There was a time when I was free
But I lost control
And now I'm not

If your God is better than mine,
Let's let them fight,
While we drink a beer!

Freedom is overrated
Not really, no
I'm just in denial

Sappy Shot

Why don't you love me?
Should I try to change?
Will I ever know your love?

You keep your frozen heart
locked away, hidden.
I seek the key to yours.

Your eyes give you away,
Your words have no meaning,
When your eyes speak true.

I can't wait forever.
I know you won't change,
But my heart won't give up.

Love is a pain
I can't live without
Yes I've never truly known it

You'll always be beautiful
even when you're old and ugly
True love

Lost in your eyes
The windows to your soul
Hopelessly Bound Forever

The moment I first saw you
My world fell apart
Never again free

Tears of joy or tears of pain
It's always tears
Whenever I see you

I would give everything up
Everything I've ever known
Just for one touch

My Sexual Sickness

Are those pus stains on your panties?

Lucky me

I like to chew on the scabs

There is a big tadpole
being chased by a snake
tattooed on my dick

no, I'm not eating lipstick
It's just that stink of mouth
I can't resist

Hey Dude, can you feel that?
That's my finger in your ass
But I'm not gay

It's not gay if you're in prison
or getting paid
It's just a hustle

Ever tasted Gonorrhea?
Sucked on the blisters?
You're missing out

I think therefore I am
So, if I think I'm your whore
Will you fuck me?

Single white male
Looking to catch every disease
ever known to man

I don't want to know your name
I smelled you from across the room
Bend over!

Digging through your bathroom trash
Seeking the blood from your gash
Tampon snack

I'm verry easy to please
as long as you stay naked
on your knees

Open up, it's just my seed
no need to be shy
so what if it's green?

I've always wondered what it'd be like
To fuck a rotting corpse.
Dont you?

Have you ever thought
that maybe sex would be better
if it was free?

For the price of your flesh
I could buy a burger
and it'd be hotter.

Stranger things have happened
but nothing quite as sick
Vomit on my dick

Dungeons and Dragons?
You want me to put my Dragon
in your Dungeon?

Homeless crack whores are cheap
so are live chickens
they make a nice threesome

Speaking of farm animals,
ever fuck a sheep?
Naaaaa, neither have I

my nuts look like prunes
but I hear they taste like bubblegum
Is it true?

It's funny to me
Fuck you if you don't like it

mentally unstable?
and physically unable?
You're just fucked!

Ever tried Acid?
You should drink a gallon
Maybe it won't kill you

Drugs are bad for you
But so is everything else
So just kill yourself

There's too many people in the world
unnatural disaster
please

Hitler wasn't evil
He was a genius
Population control

Do you know why you're here?
If you said yes
Then you're a fucking liar!

Home is where the heart is
I don't know about you
but mine's in my chest

Thinking of suicide?
I sure hope so
It's getting crowded in here

I used to pray
but God changed his number.
Do you think he's on Facebook?

Is there life after Death?
No! Death means to DIE!
You fucking idiot!
