## Love

From the first time we talked

I knew you will be the one

From the light in your eyes

You can make the sun look dim

When I was given you

I was given more love

that will make my heart swell just from memory

You can bring pain and joy

Your love comes all over me like rain

As I make my vows and say these 3 passionate words with  
affection

This love is where you lay at

I was once lost, now I am found

With love so strong

that nothing on earth could break our bound

my favorite and most passionate word is love

### My Vows

I Vow to keep my vows to this special, gorgeous, and beautiful lady

I vow to honor, cherish, and love you

I vow to treat you with Royal Respect

I vow to put my family first meaning you

I vow to be there for you through soulmate and friendship

I vow to hold you close and be your provider and protector

I vow to hold the heaven gates open until you enter

I vow to drop and leave any and every-thing for you

I Vow to put a smile on your face even when your down

I vow to listen to you when your in need to blow steam

I Vow to keep my love to you and only you

## AS I LOOK

AS I LOOK up and see strange clouds

AS the clouds open up I see red rain

AS I look down the ground is red as blood

AS the wind blow towards the new Jerusalem

AS I look back up the clouds are white

The rain is clear and light

AS the light shines through the clouds

I get on my knees and say farther god forgive me

Then the most strangest thing happened

I heard with a boom of great waters say granted

AS I wore up and see where I am at

that voice and dream I wont forget that

Happy 4<sup>th</sup> of July

As I look outside

the light is dying from the sky

Outside, the kids are playing

we get their attention with just one saying

As we set the fireworks

the kids and adults are ready to burst

with joy all over their face

Happiness brings the family together as the fingers lace

As fireworks shoot through the sky and kids burst out in laughter

They thought they'll never be happier

As the kids throw black cats

The parents are thinking "I'm missing that"

This is the best 4<sup>th</sup> of July ever

This precious memory will stay forever

We will celebrate this 4<sup>th</sup> of July together

### What is Love

Love is strong and wide

Love can make you feel

Love is forever infinite

Your love is like a precious jewel

When I was given you I was given more meaning to life

I guess love don't have a final height

Your the love of my spirit

Your the meaning of my heart

And just know I loved you from the very start

## Passion

You are the real meaning of passion

That's why I show tenderness in my actions

You have ignited a passion to my insides

That's why I wonder why do time fly's

You have craved your name in every part of me

That's why it's only you I need

As the seed of love grow

then compromise won't grow old

You are passion

You are love

You are the one to bring peace like a dove

Let's surrender to passion

### 4 walls

4 walls they comfort me

They hear my every scream

They block me from my enemies

They know the real me

We was born in 4 walls

We work inside 4 walls

Day to Day life inside 4 walls

They teach me how to think

They can provide a place of solitude

They can make us do abnormal things

They can make us think we have other strings

They can be here as shelter

They can be here for the better

I love you 4 walls

because you are here for me

Thomas Parlow

I miss

I miss the smell of green grass

I miss my family

I miss the world we shared together

I miss the change in the air when you step into my atmosphere

I miss the touch of your lips and finger tips

I just adore you and only you

I miss how we connected together

I miss how we created plans about our future

I miss your sophisticated mind

last thing is I just miss everything about you

Yes you do  
You fill my dreams  
with pleasant beings  
You fill my heart  
with love that keep swelling  
You fill my senses  
until there is nobody but you  
You fill my eyes  
with your beauty and magnificent  
You feel like silk  
under my caressing touch  
You feel strong and vulnerable  
in my embrace  
You can hurt as I hurt  
You can teach my spirit to flow  
That I can't let you go  
I wonder do you love me as I love you  
The answer is yes you do

Thomas Parlow

### True love

True love is the best love

You're not just my girl

You're also my best friend

I will love you until death do us apart

You can have anything, including my heart

Your love is like a rare rose

Being here for you is all I want to do

I hate the thought of how it would  
feel to lose you

You are my better side

You have sharpened my eyes

You have strengthened my heart

All I think about is loving you to the very end

Once we got that bond

We knew something grew strong

But as we go down this bumpy road

Our loving grew stronger

A lot of things grew harder

But we still manage to hold onto one another

## Compassion

I am thankful for your help  
for you has soothe the sting of the weep

I am graceful for the heart of love

for you bring ~~to~~ peace like a dove

We have compromise for one another

we'll always feel passion for each other

as we learn the meaning of compassion

we'll learn mercy in our actions

I show sympathy because I care

I open my heart and leave it bare

You helped me so let me help you

open your heart to compassion too

## Day of Birth

The angels rejoiced on this day of birth

God cried happy tears on this day of birth

Satan is defeated once again on this day of birth

You have become more beautiful than ever on this day of birth

You are more wiser than you ~~once~~ was on this day of birth

You have become more beautiful on this day of birth

You have taken me and pulled my coat on this day of birth

You have ~~to~~ been everything to this day of birth

Now you can celebrate everything you have on this day of birth

Sincere

You are the most gorgeous woman ever  
When you stepped into my life it's like coming out of a shelter

I was finally open to all things including pain

I'm not asking for your trust.

Because I know it has to be earned.

So I'm leaving myself open as a target

you can take shots or accept the sincerity of it

I will not hurt ~~you~~ you with a gun

I will show you love that will leave you undone

I will not cross you

But I will put absolute faith and trust in you

I will not lay a finger on you the wrong way

I just hope my love is enough to make you stay

Even though you have been receiving bad luck

Did you ever think about how your somebody else good luck

I hope you see the truth in here

because every word is sincere

I feel

I feel a feeling for you like no other

I feel like you the only one who understands me

I feel the air leaving when your leaving

I feel the butterfly's in my stomach when you look at me

I feel as long as your around I can't let you down

It is hard to understand the feelings I feel

But it ~~sends~~ sends off a dozen chills

There is no name for this feeling

But if I have to put a name to it I'll call it love

I feel these things because you are special

I feel like I would never melt

Even if I was to touch the sun

You are the cause of these feelings I feel

So I hope you feel the same way I feel

Thomas Parflew

Premise

Well I remember the annoying thing and laugh at them  
you are cherished with love and passion

I remember the late nights on the phone talking

I remember the heated arguments

But any relationship will not be completed without arguments

I remember the way look when your sad

The way you poke out your lips in that gorgeous pout I love

The things I tried to forget

I now laugh at and will smile at as long as I live

The way you gave me the silent treatment

I thought it was so cute

I remember with sudden pain how I hurt you

In more ways than one

The way I looked and threaten to leave you

But I realized that I would've never loved you like I do

If we never had our ups and downs

That made us love each other more

I hope you can reminisce with me

16

Thomas Partlow

I love you  
Your name is in me more then any cell  
I will die happy with each letter engrave into me  
It's not possible to fall in love  
The way I am with you  
There can not and will not be another one  
Cause god only made one and thats you  
I been loved you I just didn't know it when we first met  
my spirit and soul said your the one  
my mind gave out to you  
my heart fought you out of fear  
my temple ~~is~~ is finally completed thanks to you  
I was just letting you know I love you

Happy Birthday

When I am hurting you heal the wound

When I am depressed you brighten the day

When I am lonely you remind you are here

When I feel love it's because of you

When I breakdown it's not fears of sorrow but of joy

You did things I couldn't do for myself

I will for ever rejoice in your day of birth

I tell the creator thank you over and over again

I am glad for you mother because I love her too now

Because she had the strength and power to conceive you

The angels came from heaven just to see your face

When they seen you they cried and shouted out in joy

for you are pure in your own way

For you are the most magnificent being to walk this earth

so when I feel down, lonely, and depressed

What always brighten my day is you so Happy Birthday

I want you

I ~~Feel~~ Feel the love you shower me with

I want to let you know you are appreciated

I want to feel you in my arms

I want to hold you close and tight

I don't want to let you go

Can you see the little hearts in my eyes

My love is powerful

Sometimes I think it's too much

But you feel like it's just right

I am constantly scared that I will wake up

But I pinched myself and see that it is real

When I wake up I want you

When I go to sleep I want you

I want you for yesterday, today, tomorrow, and forever

Blind

I think I am blind by love

I think the sun can't blind me like you do

Your love is too bright

Your faith in me is strong

Do I keep asking my why or just give in

I am giving in because I love you

but it's impossible not to blind everybody that looks

we made scientist want to reach on love

because me and you are the true definition of love

We don't need a ring

We don't need some papers

We just need each other

We will blind the world with pure, honest love
