My Love for You

My love for you I won't regret  
Reminiscence of the emotions fret  
And I collect the flowers from your hair  
To have with you at least one heir

I touch the balm of your dreams with me  
To see with you my stance of destiny  
Together and forever I would hold  
Thy heart into my hands of gold

It is a life of bliss and of sublime  
Experience of your mind that is serene  
Eternity I feel coming from you  
Because the love that God has given too

I want to feel the warmth of your heart  
Into my arms and never go and part  
To feel emotions coming straight from you  
The bliss of life it is forever new

You Are My Snowflake

Like a snowflake falling from the sky  
You come into my life and smile  
My heart rejoices when I see of thee  
Eternity to spend with you may be

You are attractive like a drop of water  
That falls and freezes on my skin and flatter  
My mind and makes alive and stimulates the nerves  
Until I am in absence of my mind's reserves

I want to touch you but you melt away  
To take you in my arms into a sway  
So that together we may be forever  
Or until the life departs from us with tender

It is a life of joy and love together  
An infinite emotion asking whether  
You want to be with me for good  
So that the love I have is understood

My stance it is to have you all  
That even if you are so small  
I will not leave you so to melt  
My heart has frozen - only you I felt

The Rose

I've seen in your hair once  
A rose with petals like a fire  
And saw in it like in a trance  
My love for you in an attire

Rejoice, O bride of heaven's call  
To you I come to say a word  
Of love from old and make it droll  
My life is stretched just like a cord

Reveal to me your full love  
My heart is pounding of desire  
And put my hand into a glove  
Not to be stained by the earth's mire

I hear your voice as gentle  
Rose with fragrance straight from heaven  
That comes into my life to better  
My love for you with treasures laden

Beginning

I feel the love you have for me  
In your heart, down deep in it  
It is the strongest destiny  
That only you can ever fit

Do not remark the world's opinion  
That we can never be together  
It is in you I have dominion  
To have you mine for now, forever

I start to see into my heart  
A light like coming from above  
That shines in me like from a star  
From Gemini with gentle love

Do not stay aloof from me  
Come begin to tell me why  
You have found your true destiny  
By my side to be on high

Let us be again together  
What we started we can finish  
To be like that all time, forever  
It is the strongest that I ever wish

Don't Forget

Don't forget to say, "I love you"  
And to open your arms  
For I say it often too  
And my heart beats fast and warms

I am yours, you are mine  
Let's rejoice together  
This can be so much divine  
So that our love's forever

I cannot live without you  
Keep me tight again  
I give all my love to you  
Always singing the refrain

We are meant to be together  
Our choice it is God's will  
Let us dance and sing forever -  
Don't forget to live the thrill

Marriage Perverted

God created man and woman  
To become a family  
And He said to have in common  
Flesh and bones progenity

Over time in peoples' mind  
There've been perversions many  
But God's law is to remind  
What is righteous and holy

Sodom and Gomora knew  
Of God's judgment on them  
But today are only few  
Realizing what's to stem

Even in the marriage -  
God's own holy institution  
Gays and lesbians want stage  
The society's dilution

What a tragedy to see  
The same gender hand in hand  
On the alley travesty  
It's abomination's land

This is just a revolution  
Of the mankind's heresy  
Looking on for a solution  
To reason's apostasy

Three Blessed Lives

Of all is in existence  
and there is for us  
three beings are together  
God, you and me...all of us

God is the essence of our love  
which is a gift from God  
for both of us

We are His angels  
messengers of love  
for the whole world

He is so happy to see us  
together and in love  
He is the Guardian of our love

It's up to us to find the love  
and bring it in our life  
living off it and never die

It's your heart and mine united in a song  
it is my heart and yours in unison  
singing forever love

Three Persons in one God  
two persons in one  
three blessed lives

Reminiscence of Love

Of all feelings that I cherish  
Love is most dear to me  
For with it I never perish  
I feel like ever want to be

Dear ones and dear things  
All to bring me joy and wonder  
A devotion inside springs  
Out of heart's inflamed chamber

The love that I feel right now  
I'll remember it forever  
For it teaches me of how  
Rightously live and ponder

All collective memories  
Of affection for mankind  
Are united in God's mercies  
For man's destined land

Love is the beauty of all things  
An infinite manifestation  
It is the essence of all beings  
To contemplate with reverence in action

Longing for You

Every time I think of you  
I experience heaven's feelings  
Floods my heart with love for you  
And I cannot sleep all evenings

Only you can make me feel  
The romance I ever dreamed  
Just be opened to my will  
And you will know what I mean

Come and join me 'n Paradise  
Be together once for all  
And you'll know the love I rise  
In my heart for you, my doll

Reunion

Rainbow filled with springs  
Coming from the rising  
Links the souls of birds  
That look at the sky  
To find the infinite pearl  
That comes down - they fly

Reminiscence of trees  
With an edenic fragrance  
Come to embrace and see  
The altars of fire and ice

Binding Love

Whatever links the human race  
It is in hearts paved with stones  
Of diamond and green emerald  
To radiate the love we have  
One for another every day  
And for the Lord of love  
Who gave us such a virtue  
For all eternity to live and grow

Love's Fate

I love to hate  
I hate to love  
The life's at stake  
like a white dove  
To imitate  
What did not drive  
Out by mistake  
All of my life  
By your side

Pure Love

Like the bees that go around  
I have seen the Lord of all  
Cricling Earth and do the round  
To instill in hearts the call  
Of His love from the above

What a joy to have a God  
Who can do what man cannot  
And instead using a rod  
He is coming with a hot  
Heart that's filled with His pure love

Invisible Hand

What and who? I want to ask  
Touch my heart the mornings oft  
Makes me think of love of old  
And the heaven's touch to me  
To enliven life from naught  
Tells to cry with pearls of joy  
On my heart's altar to God  
Bringing bullocks out of love

Beautiful Illusion

Sliding from the moon's cusp  
trickling in my mind  
reveries from afar and now  
bring Him in through closed doors  
come to visit me and sit  
at the dinner table 'wake

Renew me from me  
to be the other self  
and see how beautiful I am...

## Winter Jolly

Glide one more time  
And smile, you little glee  
As you would be  
In a play for the life's span

Joy inside out  
Reveal the pearls you have  
Hidden in your tender treasure  
And bring life to the world

Chuckle for the world to hear -  
Your pure inward to touch  
Little one, you are the joy  
Of winter time!

## Winter Emotion

Looking into my depths  
I found icicles of old  
To melt them thoroughly  
I took from heaven's stars fire

I do not know how can  
Whole again my heart to make  
Only to believe that she can thaw  
And heaven's light dispels the haze

From sleep to rise at once  
With my forehead wet of snow  
And to look inward with prayer  
That love may take me home

## What is Love?

Love is my best friend in times of trouble  
Love is my threshold to other people  
Love forgives even the unforgiven  
Love sees into the hearts of others  
Love is the joy of my sorrows  
Love forgives even my enemies  
Love is lighter than air  
Love perceives the others' thoughts  
Love is the messenger of my life  
Love is my bridge to everywhere  
Love awaits me at the end  
Love is the love of my life

For in love I find eternity  
Disguised as the immaculate Bridegroom  
Of my heart rescued from the misery  
Of the dungeon of my thoughts

## Incognito

Don't say who you are  
I want to find myself  
Who can be and why  
Hidden in your self

Better stay like that  
To discover you  
Keep on your hat  
I'll remove it too

You can be the treasure  
I was looking for  
And I found the measure  
Just where it were

Dream

I dream of having nostalgia  
Of images I once could see  
Imagination to let free  
Into the hand of mystery

Cannot withstand the melody  
That the stars begin intone  
For my dreams come to atone  
Take away obscurity

With its fabric of artistry  
In my mind resides to test  
Leaks a trace of suave rest  
Impregnated with a misty

Dreaming pearls like they are true  
To adorn a day or two  
Purple lure, what can you do  
With my life along the hue?

You are primp just like a muse  
Tingling in my mind asleep  
I can feel you from the deep  
You just make me to amuse

## Sweet Pea

What an awesome time can be  
when I see you come to me  
Rolling your gentle knee  
Bringing me a revelry

How I long to be with you  
To gaze you hairdo  
You are really my beau  
All my life I give to you

Your fragrance is so dainty  
Gentle look your eyes emit  
Your skin like filigree  
A suave touch upon me

You will come with charm again  
I cannot stop be enthralled  
Gracious hand cannot refrain  
Songs that come to entertain

You make me always be happy  
All my thoughts for you in greeting  
You're my star and all I'm seeking:  
To be my sweet pea for all living

Love is Paradise

Happiness is for one thing  
What people search in their lives  
To come to terms into the ring  
Of spouses: men and their wives

I know it's you I'll ever want  
To touch with gentle, feather hands  
Until I come to understand  
That they are like a magic wand

I saw you opened like a flower  
With the perfume that fills  
My heart with joy and shower  
The Earth with mountains and the hills

I love to see you look at me  
And open just for us the Garden  
It is the mark of destiny  
To live in Paradise - don't harden

And there we will be at last  
Together and forever close  
Walking around and speaking fast  
The words of love like from a rose

## Forever Mine

It is the time to come again  
Climb up the ladder of the train  
That leads directly to your heart  
Forever be and never part  
So that the nights we dream together  
Extend forever and forever  
And never lose the mystery  
Of what it means by two to be

I come to you like Heaven's dawn  
And ask of you to put a gown  
For our wedding in the Heavens  
The whole eternity it covers  
That we may be together one  
Until the bodies' earth is done  
It is the Heaven's destiny  
For people just like you and me

Now is the time to live life while  
We have the drive and intertwine  
I know you love me and I do  
Love with my heart and mind you too  
Let's join the hands in revery  
And walk the way eternity  
Speaks to us to be like two  
And unto God to say, "I do"

## Rainbow

I look at skies and I see you  
Coming to me to fill me up  
With clouds of love from Heaven too  
Until it's filled the whole good cup

My hope it is that you will come  
To touch me gentle and relieve  
The sorrows that have once begun  
Too heavy for us to believe

It is the colors in the sky  
That make me leave the world behind  
To come to you like unto high  
Exalted state of love so kind

Forgive me if I love too much  
For you I give it all I've got  
I do not know why it is such  
That cannot stay put in one spot

Circle around, a demi-sound  
That Earth enjoins together  
It is the picture of a cloud  
That makes me love you so forever

Sunshine

It is a day like never was  
To see you come into my arms  
I cannot tell if ever has  
Someone been happier in swarms

I like to see the clouds believe  
I am the one with heavy reams  
I cannot be so much relieved  
Without my heart so filled with dreams

A ray of light coming from you  
So fast that takes me by surprise  
To shine my heart without ado  
And so my love for arise

I cannot know ahead of time  
What can be done to love you more  
Let me at once to entertain  
The world for you on Heaven's shore

Established Love

Love is in the air - come to me  
All I have to do is rather be  
In you all time, my dear love  
To live in pair like a dove

I hear you are laughing far away  
I find amusing your walk away  
Do not delay to come to me again  
I hear Heaven laughing like the rain

It is the living being inside you  
That's part of me together with you too  
Who bears our lives across  
So life will not be call it loss

We're growing old and know the offspring  
Will come again - it's time for spring  
That joy may be fulfilled in both of us  
Continuing the love of both as was

Choice of Dream

I have a dream to be fulfilled with you  
That I may hear more from you and woo  
Your joy angelic, full of love  
Laughter of life from Heaven's cove

I do not know what I can say  
To have you all again the way  
You used to smile and tell me so  
Not be too far away and go

I stay with you entire life  
You are my only choice of wife  
With you together want to be  
And cross the life like Heaven's sea

Feeling

I feel my sense getting dull  
And my body cannot pull  
Sleeping covering my eyes  
I cannot look up to the sky

Only you can make me live  
And my heart to get enlivened  
You are my love and all I want  
Is to have you for life's span

What sensation I would have  
For a touch on your navel  
All my body starts to shiver  
Swallowed up into the fever

Your hair is so smooth  
And the shining of your tooth  
Your skin it is so fair  
Lifts my feeling in the air

I cannot live without you  
I would marry you for good  
And to have you by my side -  
Feeling you is Paradise

What Can I Do?

What can I do for you right now  
That I may take an everlasting vow  
To be with you again I wish  
And feel my love for you enrich

You take my hand and Heaven opens  
A cloud of love surround and covers  
My eyes that look at you so tender  
And know a bond with you engender

Let me again in your arms  
To feel the love that ever warms  
The feelings just for you I have  
To tell you so I am too brave

Together we are walkin' Paradise  
The Earth is full of Heaven's wise  
We just need to find in us  
What links us both forever thus

Prayer

I pray for you to come to me  
It is the hand of destiny  
I want with you forever stay  
It is the only loving way

It is so warm inside of you  
My heart is steaming and caresses too  
My soul that used to be like ice  
And now I have to be so nice

It is spring time in Heaven's fold  
The days of old are way too old  
It is refreshing in my mind  
That I no longer be so wild

You tame my dreams thinking again  
The story that became refrain  
It is the mystery inside of you  
That only Heaven could have made me woo

Poem To My Brother

I wish we were twins  
To better see our full nimbs  
Resplendant like a hand from Heaven  
And put the family together

Our parents are gone for long  
Only we hear year's gong  
Punctuating our birthdays  
Seemingly rushing on days

To love each other do we want  
In spirit and in letter grand  
So that we feel the life in dance  
Of two hearts beating all at once

Carpatian Mountains

Deep in Transylvania  
Lay on high the mountains  
Of heavenly pearls chain  
Like Saints on a firmament

They look down to us  
To admire them  
And they take us by the arms  
Hurling us on their shoulders

The sky is higher  
With these snowy tips  
That reversed would be  
A sure ship to Heaven

Matrimony

Since time immemorial  
When man was created  
In an Eden without wall  
Man and woman never parted

What God put together  
Man never should part  
Like birds of a feather  
That never depart

Children are its fruit  
Of a couple made in love  
To bless them in old suit  
Like two turtledoves

Spring Leap

Eyeballs stare at the lake  
Water lilies isles hold  
Little creatures in the break  
Of the nature's spring time bold

Long hind legs stretch quick  
To get to the lake's brim  
Take a breath, it's rather slick  
Fill the pouch under the chin

Deep hoarse sounds resound  
Breaking the day's silence  
Calling for the hound  
Of a flying instance

Leap, leap, leap and croak  
Smooth-skinned tailless creature  
All around the clock  
Give the lake its feature

Things for You and Me

When the wind blows and  
brings down low forms inspired  
from the divine existence  
it reveals to me  
the breath of life I was looking for  
in the opaque transparency of my soul

What is there to be?  
Reminiscence of selves  
dancing in a circle of atoms  
linked by chains of emotions  
poured over the souls  
of incandescent passions  
to leaven the quest for love

Things for you and me  
to reveal the divine in them and in us  
a dove cooing the song of love from above  
to crystalize us into transparent beings

The Apple

The apple sits before me  
to reveal itself  
in my thoughts  
as a train in the past  
speeding through the creation  
like a worm eating inside of me

I savour its aroma of pleasure  
and pleasing to the sight  
with a hue of desire  
that entices me to become  
one with it in mind

Breaking the clutch of pride  
going through the inside  
of the fruit of obedience  
to germinate  
the gait of eternal life

## Encounter

I wish you come to me on a  
thought and open your arms of love  
to touch my conscience and heal it  
with heat from the oven of your heart

Fly towards me as I come to you  
let the icicles fall on the past memories  
to grind them into grains of sand that  
pace the time in an hourglass

Life disappears from you and me  
without a loving encounter  
it's all my fault - I know, just  
to forgive be willing, I implore

## Revealed

Specter of thoughts cast into sounds  
Like a bow playing on the strings  
Tight lips opened by the sound of waves  
To let the mystery out from the deep nave

Cascade of pearly beads on ladies' necks  
Clothed with the lilt of the gauzy crepe  
Blending of earth and ether to reveal  
Deep from inside the hidden real

## Day

Inside the time you're passing by  
To take away from the dream's presence  
Azure touching of my mind - then fly  
Bring down my heart's too bitter fence

Do not let me to pass away  
Without to think and to forgive  
Bring peace into my life, O ray  
My thoughts will be forever live

I Love You

From the bottom of my heart  
I give all my love to you  
To bring you all that you want  
Happiness you will know too

You're my love and I rejoice  
To see you come again to me  
To hear speak your sweet voice  
These feelings make me high to be

I never loved someone so much  
I know you are the chosen one  
Let's be together and to watch  
The children's growing being done

Be My Love

I wish you come to be my love  
And your heart open to me  
And I'll fill it from above  
In God's love for us to be

Come my dear friend from far  
To be with me for good  
And give me your gentle heart  
To love thee I'm in the mood

Do not be shy to come to me  
And your love to me to give  
I'll receive it - you will see  
In Paradise forever live

You And Me

I always think to be together  
Just you and me to be in life  
A family to raise with fervor  
For you can be my dear wife

It's not too good to be alone  
Better is to help each other  
And have friendship all along  
And continue live much further

All I want it's be with you  
And I ask you to be mine  
Make you happy I can do  
Let our lives to intertwine

Without You

Without you life is so hard  
I can't live it all inward  
I want to be much close to you  
Together see what we can do  
To make our lives to be more ripen  
Till we will see the heaven open  
And to receive in both of us  
With love we know, and thus  
Never be without each other  
And to live from now together

Thinking of You

My dear friend from far away,  
My mind it is with you always,  
I fall asleep, do wake me up  
And cannot stop the thinking heart

For it's full of love for you  
I want you know and ask you too  
Remember me in the same way  
And we will never go astray

The way you think of me I feel  
The sky is no more like of steel  
We better get together now  
And we both know the way of how

I Wish You

Of everything I ever wanted  
It's only you I wish the most  
To be with you and not departed  
It's all I ever want to host

Only with you I feel so well  
In Paradise it seems to be  
It's such a thrill - I cannot tell  
You are the love I want for me

Just come to me my dear friend  
And be together for all time  
My open arms to you I send  
To bring you closer and be mine

You Are My Star

You are my star  
O, dear friend  
My love so far  
To you I send

You light the sky  
With your smile  
Do not be shy  
Stay on my side

I will love you  
Forever more  
And give you too  
What you'll adore

Remembering You

Every time I think of you  
I cannot but feel so good  
Everything we come to do  
Makes us better understood

My remembrance's just of you  
Only brings joy in my life  
Come together and let's do  
And you will be like my wife

All the memories I have  
I keep them into my heart  
They will carry on the wave  
Sea of love to you impart

I Will Be With You

I will be with you  
Not only in my dreams  
And my presence too  
Will open love's streams

That day it will come  
When you least expect  
And will be all done  
Just like the life's best

You won't wait too long  
Joining you again  
Please be patient, strong  
My queen, you will reign

Missing You

Oh, I feel so much alone  
Without you life's boring  
From the day the world was born  
You're the divine planing

I would like to come to you  
But I'm bound so far  
I wish you'll hear too  
What I say inward

I know that a day will come  
When we'll be together  
Just be ready for my love  
And we'll live forever

I Hope You'll Come

I hope that you will come  
To see me once again  
And find out what I've done  
My heart to entertain

You travel from afar  
To reach me in the prison  
And show me your star  
My heart has long envisioned

I'm waiting every day  
Perhaps you'll visit me  
And never part the way  
Until the end will be

Forever Mine

You are my dear love  
I ever wanted have  
And feel you, gentle dove  
Into my heart engrave

With you the time is nothing  
And Heaven opens wide  
To bless our beginning  
Forever to be mine

Give me your hand at once  
My love I give to you  
And we will always dance  
Forever being two
